October 2020

October turned out to be very fruitful. We have resumed cooperation with organizations that work on reintegration - the return of children to families. Together we will have a more effective influence on the decisions of local authorities regarding working with children. It is also necessary to find a solution to the problem of the “street generation” of young people and their families.

Patrick with his aunt and grandmother

Patrick Wafula and the brothers Cleophas and Kelvin were taken into the care of their aunts and their relatives.

Branton, Ekaru, Noah, Stefan, Abdala, Steven, Ibrahim, and Kevin managed to return to their families.

The visit was attended by 11 children who successfully completed the first period of reintegration. The parents are pleased with the positive changes that have occurred in their sons after rehabilitation. The children were happy and said hi to us.

Brothers Pius and Robin

Joseph Wanjal was left for a short time (probation) in his father's family.

Pius and Robin visited their dad. Once again, they asked their father for documents for registration of birth certificates.

Please pray for the two little brothers, so that the hearts of their parents turn to the children, and for the release of father and mother from alcohol addiction.

Brothers Simon and Jonny

Abdalla with the
grandmother

Pray for Abdalla Rajab. His dad is Muslim and left his family, while his mom remarried. We pray that the new father will accept and love her son.

Eric is unable to pay for school. Please pray for wealth in his family.

We are also grateful to God for the families that are adopting our children in the same way that God adopted us all!

Thank you for your prayers and financial support.

We pray and bless you!
