November 2021

The future of our children depends on what we invest in them now. For the children to begin to change, you need to talk to them, explain to them what is valuable in life and what is not, how to be strong, but friendly at the same time, how to take responsibility for their actions, and what the meaning of life is. Therefore, this month, like everything before, we made every effort so that the time that the children spend in the center was not wasted.

A boy, Isaac Kimtayu, came to our center. He lived in a family where, unfortunately, there were constant fights due to an affair.

It became known that a student at Isaac's school was expecting a child from his father, and soon, he left the family and married the schoolgirl. Isaac had to endure the shame and discomfort at a very young age. But that is not the end. It wasn't easy for his mother, so she left the children and returned to live with her parents.

Unfortunately, his father became more and more aggressive and cruel.

Isaac, seeing that life in the house had become unbearable, left home. It was difficult to survive on the streets of Kitale, and he agreed to live at Embrace as soon as he was invited. This was a key decision in his life. After undergoing rehabilitation, he returned to his family, which, despite all the difficulties, ended up reuniting. Isaac is happier now and, when our social workers visit, he's always smiling.

Now he's in 8th grade and dreams of being a teacher. Our hearts are full of joy, gratitude and peace when we see real changes in the child and his family, when we see the results of our work.

This month we were also able to spend Thanksgiving Day with the children of our rehabilitation center! In general, what could be better than fulfilling God's command "In everything give thanks:

for this is God's will in you in Christ Jesus" (1 Thess. 5:18) Each of our children could express their gratitude to God in writing, which made them reconsider your life once again... We all have something to thank the Lord for!

During November 52 children came to us, but 10 were able to return to their families. It was a great joy that a family from our

church adopted the smallest pupils - Johnny and Simon. Our hearts are filled with joy when we see families restored, because a complete family is God's plan, His institution!

Also, together with our guests, we were able to hold a one-day camp, which was a great blessing for us and the children.

Yes, coming to us, the child leaves the street, but before he changes himself, you need to make every effort to start changing the heart of the child.

We are grateful to God for this wonderful time, for the fact that He always sends the right people at the right time! We are also grateful to you for your prayers, support, indifference, for the fact that, despite the distance, you are with us! We really appreciate it! God bless you!
